Hi Natalie

I wanted to mention that I am the author and hold the copyright of the two photos sent to you by Andres Ojanguren. I give permission for their use on the MorphoBank site only (i.e. not open access).

thanks  
Lorenzo

Dear Natalie

Attached I am sending you the TNT file of the manuscript, together with a couple of photos of living specimens of both species of the genus.

Please let me know if you have received the files and if you need something else.

Sincerely yours  
Andrés Ojanguren

**Subject:** MorphoBank Request for Participation

Dear Dr. Ojanguren-Affilastro:

I am contacting you in my capacity as a curator for MorphoBank (the NSF sponsored phylogenetics databasing project). We are reaching out to you because we are interested in bringing in new data to the site and would very much like to include the data from your paper:

"Rumikiru, n. gen. (Scorpiones: Bothriuridae), a New Scorpion Genus from the Atacama Desert," in the Feb 2012

issue of the American Museum Novitates Number 3731

In particular we would be interested in publishing your legacy matrix on the site so that other researchers can access it easily. If you have the Nexus or TNT file we can assist you with setting it up very rapidly. We also ask for an exemplar image and its accompanying specimen information. Just e-mail the file(s) to me and I will create a project entry for your article and upload the matrix and any media you send. I will then send you a link so you can review the entry and make any changes you wish.

Thank you in advance for considering our request and please do not hesitate to contact us with questions. I hold limited office hours, but do check my e-mail at least once a week and will be in touch as needed.

Sincerely,

Natalie

Natalie Milbrodt  
Curator
